CHILDCARE INTELLIGENCE REPORT

Kido International Preschool

10625 Bonaventure Dr, Austin, TX 78730 · Child Care Program

Mixed record

Recent inspections improved, but past supervision failures deserve a close look.

Nov 6, 2026	TX HHSC	1708463	99 sources
Prepared	Regulator	License / permit	Draft — awaiting administrator review

AT A GLANCE

The short version

TL;DR

Recent inspections improved, but past supervision failures deserve a close look.

Kido is a licensed River Place center serving infants through school age, with a four-star Texas Rising Star rating. HHSC listed it as operating on November 5, 2026, with no open deficiencies; its October 14 inspection cited none. Its 2022–2024 record includes serious supervision and discipline findings that are now closed. Before enrolling, ask to see how door checks, headcounts and incident reporting changed.

Licensed seats **425**	Ages **Infant, Toddler, Pre-K, School**	Licensed since **2020**
Inspections on record **43**	Findings **15** 11 rated serious	Latest inspection **Oct 14, 2026** No deficiencies cited

Scorecard

License & history — Looks good

Operating permit, no current restrictions

On November 5, 2026, HHSC listed an operating Full Permit with no permit conditions or current enforcement flags. The permit dates to December 14, 2020. [4] [21] [22] [23] [24]

Safety & inspections — Worth a look

Better recently, serious historical findings

The published record contains 15 findings from 2022–2024, including 11 rated high risk. None remained open on November 5, 2026, and the October 14, 2026 inspection cited no deficiencies. [9] [66] [67]

Staff, hours & daily life

Worth a look

Staff stability and closing time need checking

Current turnover and classroom staffing are not publicly disclosed. HHSC lists a 5:45 p.m. closing, while the school advertises 6 p.m.; a missing active background check was corrected in April 2023. 5 49 53 71

Who runs it

Not enough data

Legal ownership was not established

The Kido brand and licensed operation are identifiable, but the legal permit-holder company and ownership chain were not established in the records reviewed. 1 70

Building & environment

Not enough data

Current building-safety documents were not retrieved

Current fire-inspection and occupancy documents were not retrieved, and historical unit records were not mapped to the licensed space. Separate food inspections scored 100 in December 2025 and 96 in September 2026. 32 36 68 74

Cost, subsidies & funding

Worth a look

Subsidies accepted; current total cost unclear

HHSC lists subsidy acceptance, but current tuition is not verified. The school says two daily snacks are included and catered lunch costs extra. 6 72 82 86

Neighborhood & alternatives

Worth a look

Nearby choices, but test your drive

Several alternatives are listed within 0.3 miles. Traffic models for November 10, 2026 show some sampled pickup routes taking about 29–31 minutes, despite starting points being about three miles away in a straight line. 57 58 59 99

WHAT PARENTS DECIDE ON

Your checklist

The things parents told us matter most, answered for this program. Anything marked “Confirm” or “Unknown” is a question for your tour.

Cameras & recordings Not found	As of the November 6, 2026 research, no River Place-specific camera, recording, retention or parent-access policy was found. Photos in the parent app do not establish live camera access or recordings. **Ask:** Are classrooms and outdoor areas recorded, how long is footage kept, and can parents view live video or request incident footage?	Unknown
Food: kitchen or catering, included or extra Program says	The school website reviewed in November 2026 says two daily snacks are included, while catered lunch costs extra. Lunch prices and any on-site cooking arrangement were not published. 82 **Ask:** What does catered lunch cost, who supplies it, and what are the packed-lunch and allergy rules?	Dealbreaker?
Drop-off & pick-up traffic Mixed sources	For points about three miles away in a straight line, the November 10, 2026 traffic model averages about 15 minutes arriving and 16 minutes leaving; some 5 p.m. routes take 29–31 minutes. Parking queues were not checked, and closing time remains unresolved: HHSC says 5:45 p.m., while the school says 6 p.m. 5 53 99 **Ask:** Is the pickup deadline 5:45 or 6 p.m., where do families queue, and can I observe pickup before enrolling?	Dealbreaker?
Teachers: turnover & tenure Mixed sources	Current teacher turnover, tenure and classroom staffing were not publicly disclosed as of November 5, 2026. One February 2025 tour visitor raised a turnover concern, but that isolated account does not establish a pattern. 71 81 **Ask:** How long have the teachers in my child's room worked here, how many left in the past year, and who covers breaks and absences?	Confirm

Tuition & extra costs Mixed sources	An undated provider-supplied listing quotes $1,700 monthly for infants, $1,500 for ages 1–3 and $1,450 for ages 4–5; these are not verified current rates. Lunch costs extra, and one February 2025 parent reports optional paid gymnastics and sports. 72 81 82 86 **Ask:** Please give me a current written quote covering tuition, registration, lunch, activities, transportation, late pickup and withdrawal charges.	Confirm
Subsidies & family mix Public record	HHSC lists subsidy acceptance as of November 5, 2026; April–June 2024 payments averaged $10,202 monthly, suggesting an estimated 7–13 full-time subsidized children. That equals roughly 2%–3% of today's 425-seat capacity, not the actual enrolled-family share, which is unknown. 3 6 71 95 **Ask:** Do you currently have subsidy-funded openings for my child's age, and what copay or extra charges would our family owe?	Confirm
Quality rating Public record	The Texas Workforce Commission record lists Texas Rising Star four-star status, effective June 13, 2025 through May 4, 2028. This is a quality rating, not a guarantee against safety incidents. 94	Looks good
Teaching approach Program says	The website reviewed in November 2026 describes play-based learning drawing from Montessori, Reggio Emilia and Multiple Intelligences, plus Forest School at River Place. This describes the school's approach, not independently measured learning results. 54 82 **Ask:** Can you show me a typical day for my child's age and explain how often children take part in Forest School?	Looks good
Communication with parents Mixed sources	The website describes an app for photos, messages, meals and naps, and one January 2025 parent reports supportive check-ins. A March 2023 finding involved missed safety notifications to parents; correction was verified April 24, 2023. 40 80 82 **Ask:** Which incidents trigger an immediate phone call, who makes that call, and when do parents receive the written report?	Confirm

THE SCHOOL-RUN

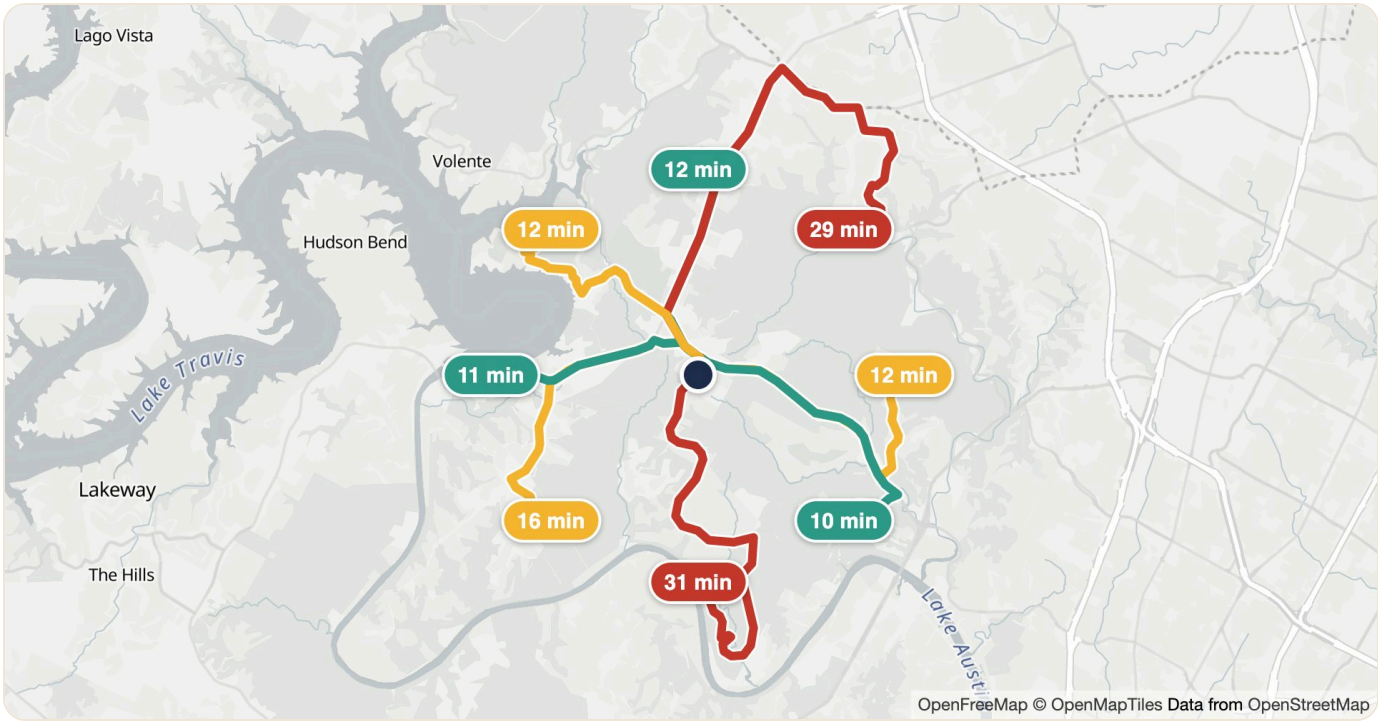

Drop-off & pick-up traffic

Typical drive times from 3 miles away (straight line) in 8 directions, at the hours parents drive: arriving 7:00 AM–8:30 AM and leaving 4:15 PM–5:45 PM. The map shows pick-up, usually the slower trip.

Drop-off
15 min
+0.8 min traffic · peak 7:45 AM

Pick-up
16 min
+2 min traffic · peak 5:00 PM

Traffic per year
22 h
extra vs. empty roads, 2 round trips a day

Coming from	Drop-off (peak)	Pick-up (peak)	Empty roads	Driving distance
South	29.1 min	31.2 min	26.6 min	14.8 mi
Northeast	23.8 min	28.7 min	20.5 min	11.3 mi
Southwest	13.5 min	15.5 min	11.4 min	5.3 mi
East	12.9 min	12.4 min	12.1 min	5.8 mi
Northwest	12.5 min	12.4 min	11.9 min	4.7 mi
North	11.9 min	11.7 min	11 min	3.7 mi
West	10.4 min	11.1 min	9.2 min	4.1 mi
Southeast	10.6 min	10.2 min	9.9 min	5.2 mi

Drive times: historical traffic for a typical weekday (Google Routes (historical traffic, best guess)). Route lines: OpenStreetMap. Hours from the state listing (7:00 AM–5:45 PM). Your own route may differ.

WORD OF MOUTH

What parents say

Parents mostly report enjoyable learning activities, children liking school and supportive communication, but the identifiable independent feedback is small and mainly from 2020 and 2025. School-selected testimonials are undated and are not an independent sample. One February 2025 tour visitor described a loud, chaotic atmosphere and questioned turnover; that remains an isolated account.

- **Parents report varied, engaging learning**
  Three independent accounts from November 2020 and January–February 2025 praise learning, curiosity or enrichment. Two additional undated, school-selected testimonials praise the curriculum. 79 80 81 82 83

- **Children reportedly enjoy attending**
  Four independent accounts between November 2020 and August 2025 describe children liking school, thriving or making friends. The August 2025 comment is brief. 79 80 81

- **Caring relationships receive praise**
  One November 2020 parent review and three undated, school-selected testimonials describe friendly or caring staff. Most of these mentions were selected by the school. 79 82 83

- **Some families value the communication**
  One January 2025 parent reports frequent transition check-ins and engaged administration. One undated, school-selected River Place testimonial praises communication through the app. 80 83

- **One visitor questioned atmosphere and turnover**
  One February 2025 tour visitor reports a loud, chaotic setting and perceived higher turnover than at a nearby option. No corroborated turnover rate was found. [71] [81]

Summarized from public reviews, Reddit, Facebook and other posts, and the program's website. These are parents' opinions, not verified facts.

WHAT STOOD OUT

Key findings

1

Recent results are better than the earlier safety record

The published record contains 15 deficiencies dated May 2022 through February 2024, including 11 rated high risk. All eight inspections in the November 5, 2023–November 5, 2026 window recorded no violations, including the October 14, 2026 visit. No deficiencies remained open on November 5, 2026. [9] [65] [66] [67]

Why it matters: The improvement is reassuring, but it does not erase the serious earlier findings.

2

Past supervision failures included a child getting outside

A February 24, 2024 investigation found that a child opened an exterior door unnoticed and was outside alone for about one to three minutes; correction was verified April 2, 2024. An August 20, 2023 investigation found that a child left a transition line unnoticed for four minutes; correction was verified September 28, 2023. [37] [38]

Why it matters: Families should see how staff now check doors and account for every child during transitions.

3 A 2023 finding involved physical punishment and missed notifications

HHSC's March 24, 2023 investigation found that a caregiver pulled a child's hair as punishment. Related findings involved failing to notify parents and failing to report the risk situation to the state within 48 hours; corrections were verified April 24, 2023. [39] [40] [41]

Why it matters: Ask how discipline is monitored and how parents are contacted when something goes wrong.

4 A current state record supports the four-star quality rating

The Texas Workforce Commission record dated October 23, 2026 lists Texas Rising Star four-star status. Its stated effective period is June 13, 2025 through May 4, 2028. [94]

Why it matters: This provides a separate positive quality signal alongside the licensing record.

5 The published closing times do not agree

HHSC listed weekday hours of 7 a.m.–5:45 p.m. on November 5, 2026. The school website reviewed that day advertised 7 a.m.–6 p.m.; the actual pickup cutoff was not resolved. [5] [53]

Why it matters: A 15-minute difference can affect whether pickup works with your job and commute.

6 Lunch costs extra, and current tuition needs a written quote

The website reviewed in November 2026 says two daily snacks are included and catered lunches can be purchased. An undated provider-supplied listing quotes monthly tuition of $1,450–$1,700 depending on age, but those rates are not verified as current. [72] [82] [86]

Why it matters: The monthly tuition figure alone may not reflect your full bill.

7 Historical payments suggest a small subsidized group

April–June 2024 subsidy payments averaged $10,202 per month, suggesting an estimated 7–13 full-time children at assumed payments of $800–$1,500 per child. That is about 2%–3% of the current 425-seat licensed capacity, not a measured share of enrolled children. HHSC listed subsidy acceptance on November 5, 2026. [3] [6] [71] [95]

Why it matters: Subsidies may be an option, but current funded openings and family-income mix still need checking.

8 The legal permit-holder company remains unidentified

The records reviewed through November 5, 2026 identify the Kido-branded operation but do not establish its legal permit-holder company or complete ownership chain. Website and recruitment names were not enough to verify those links. [1] [70]

Why it matters: Knowing the contracting company helps families understand who is responsible for fees, policies and complaints.

Questions to ask on your tour

- [ ] **What changed after the 2024 unsupervised exit, and can you show me today's door checks and child-by-child headcount process?**
  Historical findings involved an exterior exit and children being missed during transitions or classroom supervision. [37] [38] [42] [46]

- [ ] **How do you monitor discipline, and exactly when must staff call parents and report a serious incident to the state?**
  The March 2023 findings involved physical punishment and missed parent and state notifications. [39] [40] [41]

- [ ] **How long have my child's teachers worked here, how many teachers left in the last year, and how do you verify active background checks before anyone works in a room?**
  Current turnover is not publicly disclosed, and an inactive background-check finding was corrected in April 2023. [49] [71] [81]

- [ ] **Do cameras record classrooms and outdoor areas, how long is footage retained, and what can parents access after an incident?**
  No location-specific camera or recording policy was found.

- [ ] **Is the final pickup deadline 5:45 or 6 p.m., and can I observe the parking and pickup process at my likely arrival time?**
  Published closing times conflict, and some modeled pickup routes are much longer than the average. 5 53 99

- [ ] **Can you provide a current all-in fee sheet and tell me whether a subsidy-funded place is available for my child's age?**
  Published tuition is undated, lunch costs extra, and subsidy acceptance does not establish an available funded place. 6 72 82 86

- [ ] **What legal company holds this permit and signs the enrollment agreement, and can you share the current fire-inspection and occupancy documents for the rooms children use?**
  The legal permit holder was not established, and current building-safety documents were not retrieved. 70 74

CHAPTER 1

License & history

Looks good

In short. The center had an operating Full Permit without conditions on November 5, 2026. Its current state quality record also supports a four-star Texas Rising Star rating.

Key facts

- HHSC identifies operation 1356451, permit 1708463, at 10625 Bonaventure Drive, Austin. [1]
- The Full Permit was issued December 14, 2020. [4]
- On November 5, 2026, HHSC listed the operation as active and not temporarily closed. [21]
- That day's record showed no permit conditions or current corrective or adverse action flags. [22] [23] [24]
- Licensed capacity was 425 children as of November 5, 2026. [3]
- The activity feed contains 43 inspections, investigations and assessments from December 21, 2021 through October 14, 2026. [7] [28]
- Texas Rising Star four-star status is listed for June 13, 2025 through May 4, 2028. [94]
- The exact opening date and any ownership or licensed-capacity change dates were not established. [77]

What it means

The operating permit and lack of current restrictions are clear positives. The 43 activities are not 43 separate physical inspections. Licensed capacity is a regulatory limit, not actual enrollment or available places, and the permit issuance date does not establish the first day children attended.

Still unknown

- How many children are currently enrolled, by age group?
- How many places are available in the specific classroom your child would join?

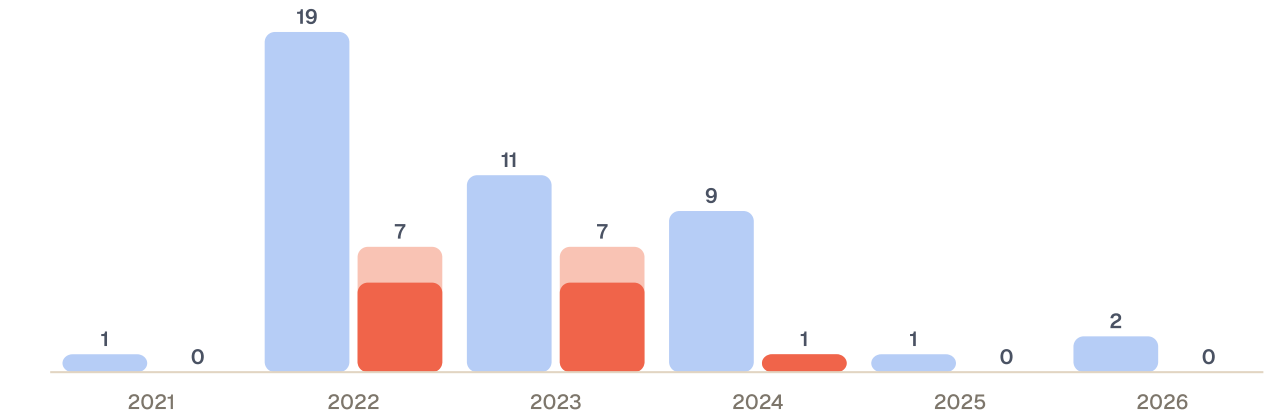

CHAPTER 2

Safety & inspections

Worth a look

In short. The historical record includes repeated supervision failures and a physical-punishment finding. Recent inspection results are better, and no deficiencies were listed as open on November 5, 2026.

INSPECTION HISTORY BY YEAR

Supervision & ratios **10** | Health records & medication **2** | Safety hazards **2** | Other **1**

Texas HHSC inspections, report investigations and assessments since October 2017, updated daily.

Key facts

- The published May 2022–February 2024 findings total 15: 11 high risk and four medium risk. 66
- All eight inspections in the November 5, 2023–November 5, 2026 window recorded no violations. 65
- No deficiencies remained open on November 5, 2026. 9
- A February 24, 2024 investigation found a child outside alone for one to three minutes; correction was verified April 2, 2024. 37
- An August 20, 2023 investigation found a child missing from a transition line for four minutes; correction was verified September 28, 2023. 38
- March 24, 2023 findings involved hair-pulling as punishment and missed parent and state notifications; corrections were verified April 24, 2023. 39 40 41

- Four investigations from May through November 2022 found supervision failures, including children unattended in classrooms or on the playground. [42] [43] [44] [46]
- A May 22, 2022 finding involved failure to complete and share an incident report with parents within 48 hours. [45]

What it means

The repeated supervision failures are the main historical concern, rather than paperwork alone. Newer results and closed findings deserve weight, but they do not prove today's routines. Two older entries have unresolved date conflicts: the July 15, 2022 entry says corrected during the visit but lists July 25, while the May 22 incident-report entry lists verification on May 25 before correction on May 27. The 2024 narrative calls the investigation self-reported, but its data flag says otherwise; the underlying supervision finding is consistent.

Still unknown

- What door controls, transition checks and management audits are used now?
- How are substitute and closing staff trained in those routines?
- What checks confirm that discipline and incident-reporting policies are followed?

CHAPTER 3

Staff, hours & daily life

Worth a look

In short. The center serves a broad age range and advertises a play-based program with parent-app updates. Current staffing stability is not public, and the closing-time conflict needs resolving.

Hours **07:00 AM-05:45 PM** | Days **Mon, Tue, Wed, Thu, Fri** | Subsidies **accepted**

Key facts

- HHSC lists infant, toddler, pre-kindergarten and school-age care as of November 5, 2026. [26]
- HHSC lists weekday hours of 7 a.m.–5:45 p.m.; the school website advertises 7 a.m.–6 p.m. [5] [53]
- Current enrollment, staff headcount, turnover and classroom-level staffing ratios are not published in the accessible HHSC row. [71]

- An April 12, 2023 finding involved a caregiver without an active background check at the center; correction was verified April 13. [49]
- A September 28, 2023 inspection found incomplete immunization documentation in four of ten sampled child files and missing health statements in seven. [47] [48]
- Corrections to those child-file findings were verified October 24, 2023. [47] [48]
- The school describes play-based learning, Forest School and an app with photos, messages, meal and nap updates. [54] [82]
- One February 2025 tour visitor raised concerns about noise, atmosphere and perceived teacher turnover. [81]

What it means

The background-check finding was historical and corrected; it does not establish a disqualifying criminal history. Missing health documentation likewise does not show that children were unvaccinated or ill. Parent praise and the isolated critical tour account cannot establish current teacher stability, so ask for classroom-specific tenure and staffing information rather than relying on reviews or job advertisements.

Still unknown

- What is the actual pickup cutoff?
- What are teacher tenure, annual turnover and daily ratios in your child's room?
- Who covers opening, closing, breaks and absences?
- Which listed services, including transportation and part-time care, are currently available?

CHAPTER 4

Who runs it

Not enough data

In short. The operation is clearly identified as Kido, but the legal company behind the permit was not established. A director listing or brand name does not prove ownership.

Key facts

- HHSC identifies this licensed operation as Kido International Preschool. [1]
- HHSC lists an administrator/director as of November 5, 2026. [25]

- No legal permit-holder company, taxpayer identifier or complete ownership chain was established in the accessible records. [70]
- A City of Austin historical list places Children's Courtyard at the same address in 2018. [60]
- The current property owner and lease terms could not be established from the attempted appraisal-record retrieval. [61]

What it means

The director's operational role is not evidence of ownership. Company names appearing in website terms or recruitment material were not independently linked to the Texas permit holder. Earlier childcare occupancy also does not establish a corporate transfer, and the building owner may be different from the childcare operator.

Still unknown

- What legal company holds permit 1708463?
- What company signs the enrollment agreement and receives payments?
- Who handles complaints above the center level?
- Is the childcare space owned or leased, and by whom?

CHAPTER 5

Building & environment

Not enough data

In short. Food-inspection scores provide a positive signal, but current building and environmental safety documents were not retrieved. Historical permits concern particular units and do not establish a current problem at Kido.

Key facts

- A February 2020 news report described renovation of a former childcare facility at this address. [19]
- A Unit B fire-damage assessment permit was finalized May 22, 2020. [33]
- A Building C childcare construction permit was completed November 30, 2006, but was not mapped to the current licensed space. [36]

- No current facility-specific occupancy certificate or most recent annual fire-inspection report was retrieved. 74
- Austin food inspections scored the preschool 100 on December 1, 2025 and 96 on September 3, 2026. 32 68
- A November 9, 2022 childcare inspection found a breaking playground climbing structure with exposed sharp metal. 50
- No site-specific drinking-water, indoor-air, lead, mold or soil test results were retrieved. 75
- The flood-zone lookup failed on November 5, 2026, leaving flood status undetermined. 15

What it means

The food scores are encouraging results from those visits, not a building-safety clearance. Unit B and Building C records are historical property context and must not be treated as Kido violations or proof of present damage. The playground record lists correction verification on November 11, 2022 before its stated November 30 correction date, so the exact correction timing remains unresolved. Missing documents and failed lookups do not mean required inspections are absent or that a hazard exists.

Still unknown

- Which buildings and rooms are covered by the current childcare permit?
- Can the center provide current fire-inspection and occupancy documents?
- How are playground defects checked, recorded and repaired?
- What environmental testing or flood-planning information can families review?

CHAPTER 6

Cost, subsidies & funding

Worth a look

In short. Subsidy acceptance and historical payments are supported by public records. Current tuition, extra charges and the center's financial condition remain unclear.

Key facts

- HHSC lists subsidy acceptance as of November 5, 2026. 6
- April–June 2024 childcare subsidy payments averaged $10,202 per month. 95

- Those payments suggest an estimated 7–13 full-time subsidized children, about 2%–3% of current licensed capacity. [3] [95]
- An undated provider-supplied listing quotes monthly tuition of $1,700 for infants, $1,500 for ages 1–3 and $1,450 for ages 4–5. [86]
- The school says two daily snacks are included and catered lunches cost extra. [82]
- No current tuition or dollar fee schedule was found on the school website reviewed November 5, 2026. [72]
- The center was not found in the Texas Child and Adult Care Food Program site list for 2025–2026. [96]
- No facility-level revenue, profit, debt, cash balance, rent or audited financial statement was identified. [69]

What it means

The subsidized-child estimate assumes $800–$1,500 paid per child each month; it is not a headcount. Comparing that historical estimate with today's 425-seat capacity gives only a rough scale, not the share of enrolled families receiving aid or a measure of family income. The undated tuition listing should not be treated as a current quote. Absence from the food-program list does not mean meals are unavailable, and the records reviewed do not support a judgment about financial health.

Still unknown

- What are the current tuition, registration, supply and activity charges?
- What do lunch, transportation and late pickup cost?
- Are subsidy-funded openings available, and what remains payable by families?
- What are the deposit, refund, notice and withdrawal rules?

CHAPTER 7

Neighborhood & alternatives

Worth a look

In short. The center is on Bonaventure Drive near RM 2222, with several nearby childcare alternatives. Average modeled traffic delays are modest, but road routes from some directions are long.

Nearby program	Distance	Seats	Findings on record
River Place YMCA of Central Texas	0.1 mi	150	4
Primrose School of Four Points	0.2 mi	222	6
School in the Hills-River Place LLC	0.3 mi	275	2
Austin Baptist Church	0.9 mi	75	1
Lsp Four Points, INC.	1.2 mi	154	33
Grandview Hills YMCA of Central Texas	1.9 mi	125	7

Key facts

- Bonaventure Drive is mapped as a residential street, with RM 2222 about 386 meters away. 98
- The November 10, 2026 traffic model averages 14.9 minutes arriving and 16.3 minutes leaving for sampled points about three miles away in a straight line. 99
- At 5 p.m., sampled northeast and south routes take about 29 and 31 minutes, respectively. 99
- River Place YMCA of Central Texas is listed 0.1 miles away, with capacity 150 and HHSC hours of 2:30–6:30 p.m. 14 59
- Primrose School of Four Points is listed 0.2 miles away, with capacity 222 and HHSC hours of 7 a.m.–6 p.m. 13 58
- School in the Hills-River Place LLC is listed 0.3 miles away, with capacity 275 and HHSC hours of 7 a.m.–5:45 p.m. 12 57
- Current tuition, vacancies, enrollment and waitlists were not established for those three nearby programs. 78

What it means

The route estimates use historical traffic to model a typical weekday; they are not observed school queues or a forecast for your exact home. Some sampled road routes are much longer than their straight-line distance suggests. Test the actual drive at your pickup time. The YMCA is primarily a school-age alternative, not an equivalent infant-care option, and raw finding totals should not be used to rank programs without matching dates and seriousness.

Still unknown

- What does your actual home-to-school and work-to-school drive take at pickup time?
- How much time do parking and classroom handoff add?
- Which alternatives serve your child's age and have an available place?

APPENDIX

About this report

Limitations

- Operating status and enforcement flags are as of November 5, 2026; parent-signal research was summarized November 6, 2026.
- This report uses the supplied index and evidence metadata; source pages and retrieval results were not independently rechecked for this report.
- Inspections describe past visits, not guaranteed present conditions; several older correction entries contain unresolved date inconsistencies.
- Independent parent feedback is limited, displayed review totals vary, and school-selected testimonials are not an independent sample.
- Actual enrollment, classroom staffing and turnover are not publicly disclosed in the accessible HHSC record.
- Current building documents and environmental tests were not retrieved, flood lookup failed, and traffic figures are models rather than observed pickup times.

Could not determine

- Actual current closing and pickup deadline: 5:45 or 6 p.m.
- Current classroom enrollment, teacher tenure, turnover and staffing ratios.
- Current door-control, headcount, discipline-monitoring and incident-notification procedures.
- Camera coverage, recording retention and parent footage-access rules.
- Current tuition, lunch prices, extra fees and withdrawal terms.
- Current subsidy-funded openings, family copays and actual subsidized enrollment share.
- Legal permit-holder company, ownership chain and enrollment-contract entity.
- Current licensed building footprint, occupancy certificate and annual fire-inspection report.
- Site-specific environmental test results and flood-zone determination.
- Observed pickup queues and current vacancies or prices at nearby alternatives.

How to read the source numbers

Every statement links to a numbered source below. **Verified** means an official record says it directly. **Corroborated** means it was matched by an exact identifier or two independent sources.

Historical means it was true at a past date. **Not found** and **not public** mean we looked and could not confirm — never evidence that no issue exists.

Research model: gpt-6.1-sol (reasoning high) · 139 research steps · Verification: 75 passed, 3 reclassified, 7 excluded; 7 contradictions
